

Agentic-AI by

Intelligent Automation.
Seamless Orchestration.
Smarter IT Operations.

A futuristic graphic featuring a glowing blue square frame with the text 'AI Agent' inside. The frame is surrounded by complex, glowing blue circuitry and data lines, all set against a dark blue background with bokeh light effects.

AI
Agent

Unleash Automation. Infinite Insights.

With **Agentic AI by UnityOne.AI**, gain instant, centralized access to all your cloud and data center resources. Streamline management, optimize performance, and make smarter decisions.

Comprehensive Visibility

One unified view of your entire infrastructure.

Real-Time Resource Tracking

Know exactly what's running and how it's performing, at all times.

Cross-Cloud Clarity

Full visibility across all major cloud platforms—AWS, Azure, GCP, and more.

Agentic AI-Security Agent

Proactive Security. Instant Threat Mitigation.

Detect Vulnerabilities

Continuously monitor your environment, identifying potential threats and anomalies before they escalate.

Autonomous Risk Mitigation

Trigger workflows, isolate affected systems, or recommend remediation—all with minimal human intervention.

Cloud Misconfiguration Detection

Automatically scans cloud resources for misconfigurations, such as exposed storage or overprivileged roles, helping you avoid costly security breaches.

Agentic AI-Orchestration Agent

Effortless IT Automation. Smarter Operations.

Dynamically Coordinate Tasks

The Orchestration Agent selects and executes tasks in the right sequence, adapting based on context and outcomes.

Self-Optimizing Workflows

Continuously learns from previous executions to improve efficiency and resolve issues autonomously.

Multi-Tool Integration

Seamlessly integrates with your existing tools and infrastructure, such as AWS, Azure, Kubernetes, Terraform, and CI/CD tools like Jenkins.

Agentic AI-Cost Analysis Agent

Smarter Cost Management for Cloud & Hybrid Environments

Analyze Cost Patterns

Monitor real-time and historical data to identify inefficiencies and spending anomalies.

Proactive Cost Optimization

Receive actionable recommendations on rightsizing, decommissioning, or scaling adjustments.

Automated Cost-Saving Actions

The agent intelligently analyzes usage patterns, identifies inefficiencies, and autonomously triggers actions like rightsizing or scaling adjustments to optimize resource allocation.

Agentic AI-KB (Knowledge Base) Agent

Instant Answers. Smarter IT Support.

Contextual Knowledge Indexing

Instantly fetch the most relevant answers to user or system queries, leveraging both structured and unstructured data.

Continuous Knowledge Enhancement

As the KB Agent learns from interactions and new data, it automatically updates and refines your knowledge base, ensuring accuracy and relevance over time.

Proactive Knowledge Discovery

The agent identifies gaps in the knowledge base and suggests new content or improvements, ensuring your knowledge resources remain comprehensive and up to date.

Agentic AI-ITSM Agent

Automate Incident, Request, and Change Management for IT Support.

AI-Powered Ticket Management

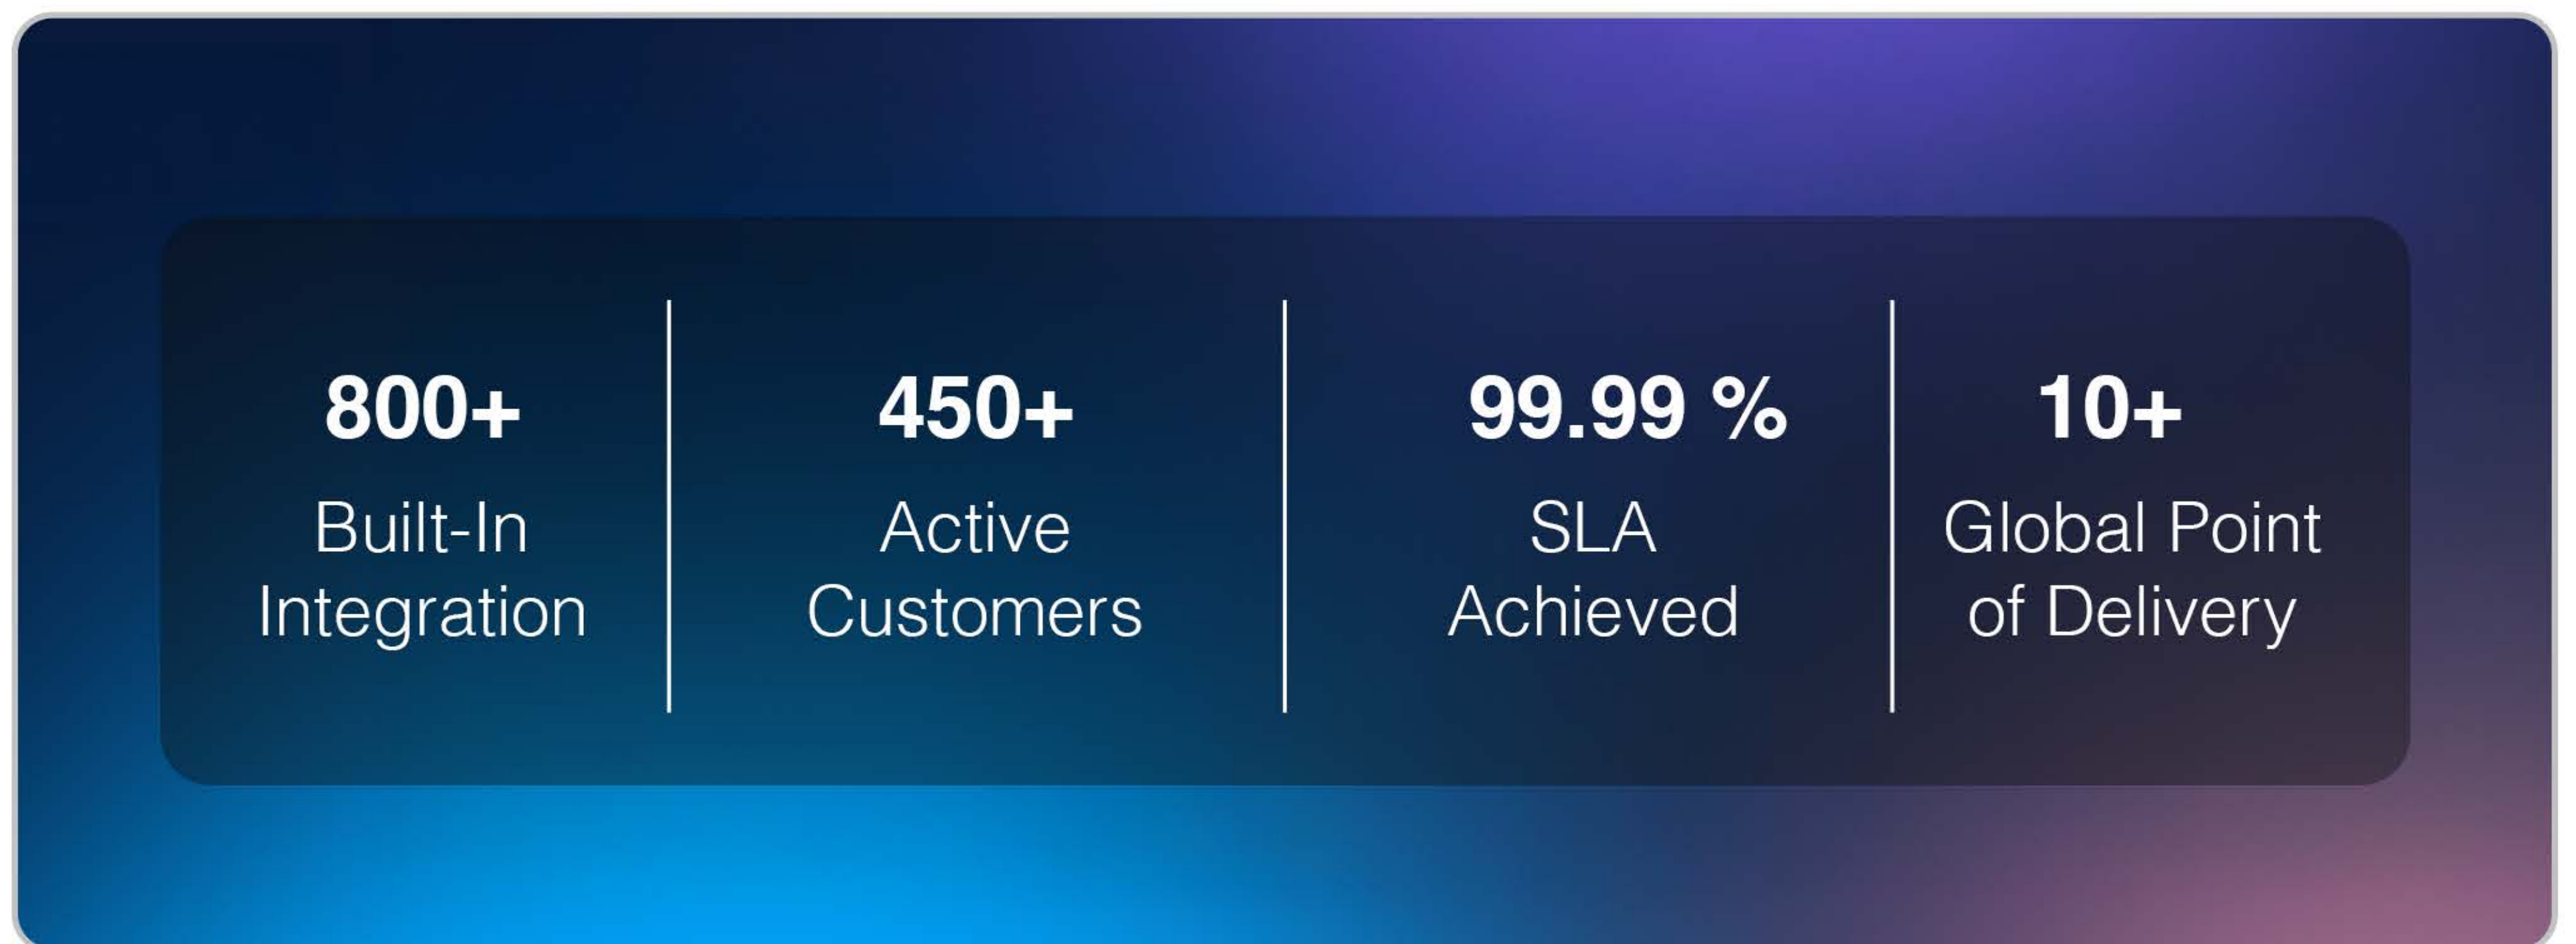

Automatically categorize, prioritize, and route tickets, resolving common issues autonomously or triggering workflows for faster resolution.

Context-Aware IT Actions

Improve response time and accuracy with AI-driven suggestions, auto-filled fields, and intelligent escalations.

Transform IT Service Delivery

Deliver faster, more accurate IT support, all while reducing manual effort and improving team efficiency.

Supercharge Your IT Operations with Agentic AI

Agentic AI by UnityOne.AI transforms your IT operations with intelligent automation and real-time insights. From security threat detection to seamless orchestration and proactive cost optimization, our agents work smarter, not harder. With centralized visibility and AI-driven actions, streamline your workflows, reduce manual effort, and unlock smarter, faster business outcomes.

Agentic AI by UnityOne.AI—intelligent automation that drives smarter, faster, and more secure business outcomes.
